

# Debriefing

Kickoff - 13 November 2020

## The concept

This is a project for Dieudonné Gakire's charity - OWC Rwanda.

The main goal of the project is to create an application which allows people to support the charity by donating money, buying certain item for the charity, or donating their own physical items.

Other than that, there should be a newsfeed where people can follow the charity's progress.

## Limitations

Our group's responsibility is to further develop the concept, and design and implement the front-end of the application. The final product will be a front-end application, technology to be decided, and a design document.

## Contact

The contact between our groups will be done by Microsoft Teams and Email. All meetings will be conducted in Microsoft Teams.

**Thijs Verstappen:** [356836@student.fontys.nl](mailto:356836@student.fontys.nl)

## Planning

The project will be developed using the SCRUM methodology, with the following deliverables:

- 20<sup>th</sup> November – Planning
- 27<sup>th</sup> November – Design
- 18<sup>th</sup> December – Development
- 8<sup>th</sup> January – Final application

## Requirements

The application should work on Android devices, but preferably on as many operating systems as possible.
